

full service design

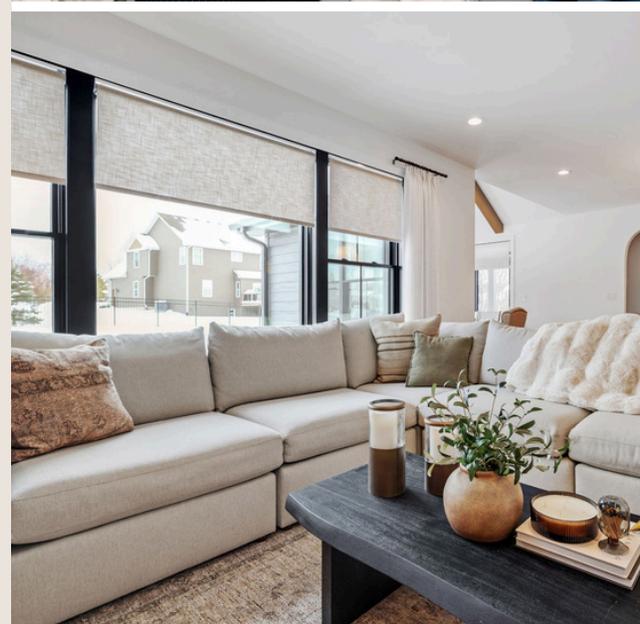

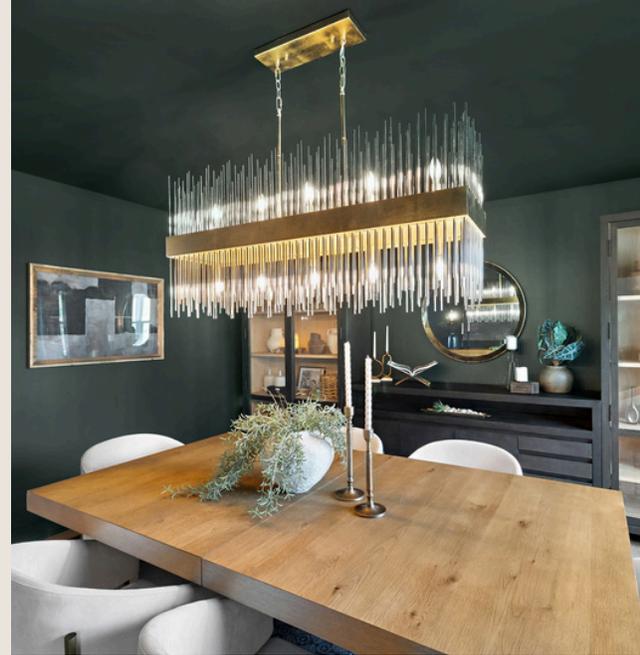

CONCEPT TO COMPLETION

This service is designed for clients who want a fully finished, cohesive space without managing logistics.

Service Scope:

- Design development and refinement
- Layouts and visual planning
- Furniture and decor sourcing
- Procurement and order management
- Decor Preparation & Curation
- Installation planning and execution

A completed, photo-ready space that reflects the approved design vision.

working with us

our design phases

PHASE 1 | ONBOARDING

This phase lays the foundation for a successful project by gathering accurate on-site measurements and photos, creating detailed floor plans, and establishing precise sizing specifications to streamline decision-making. We also set up internal project systems and defined initial inspiration and overall concept direction to ensure a clear, cohesive path forward.

PHASE 2 | DESIGN PROCESS

We create design boards with thoughtfully sourced products that align with your space, aesthetic, and budget, along with proposed layouts and 3D renderings for clear space planning. Additional visualization tools are used to refine the design, followed by a review meeting, final revisions, and full design approval before ordering.

PHASE 3 | PROCUREMENT + CURATED STYLING

Once all decisions are finalized, we bring the design to life by ordering from trusted trade vendors and coordinating deliveries, shipments, and any necessary returns. In signature Salted Hue style, we thoughtfully style and curate your space with intentional layers and personal details for a finished, elevated result.

PHASE 4 | INSTALL DAY

This is where everything comes together. With construction complete and furnishings in place, we install artwork and window treatments, style every surface, and finalize the details to ensure your space is polished, complete, and photo-ready.
